DSA

Open AI

## Projects

### BookItUp

**Full-stack Ai-integrated Travel Platform**

*Mar 2025 - Jul 2025*

[Link](#) [Github](#)

- Built a full-stack Airbnb-style web app using Node.js, Express, MongoDB, EJS, and Bootstrap with secure user auth (Passport.js), listing CRUD, Cloudinary image uploads, and responsive UI.
- Integrated an AI-based travel planner using OpenRouter (GPT API) that generates personalized day-wise itineraries based on user input.
- Features include search, filters, reviews, dark mode, flash messages, and a clean MVC architecture — fully deployed on Render with external API handling and session management.

### JobFit AI

**Smart Resume Analyzer & Job Matcher**

*Nov 2024 - Feb 2025*

[Link](#) [Github](#)

- Built a full-stack AI-powered web app using React, Express.js, and Gemini API that analyzes uploaded resumes (PDF/Text) to extract strengths, weaknesses, and job role recommendations.
- Integrated real-time job suggestions via external APIs based on the resume analysis, enabling users to apply to relevant job listings instantly.
- Generated tailored cover letters using AI for any selected job title and company, significantly improving user preparedness and job application success rate.

## Node SQL

**Full Stack Integration Project**

[Powered by Resume](#) [Gemini](#)

*Nov 2023 - Aug 2024*

[Link](#)

- Built a Node.js backend with MySQL for CRUD operations and REST API integration.
- Skills Used: Node.js, Express.js, MySQL, REST API, SQL, MySQL2, MVC Architecture

## **Restaurant Website Full Stack Project**

*Feb 2023 - Sep 2023*

[Link](#)

- Designed a website to order online food and also book seats
- Skills Used: HTML, CSS, JavaScript, Node.js, Express, EJS, SQL.

## **Amazon Clone Frontend Page**

*Aug 2022 - Sep 2022*

[Link](#)

- Designed a clone of Amazon.com.
- Skills Used: HTML, CSS.

## **Professional Certifications**

- IBM-Developing Back-End Apps with Node.js and Express.
- COURSERA- Introduction to Web development: HTML, CSS, JavaScript.
- COURSERA- Understanding Basic SQL Syntax.
- BOORD INFINITY -Fundamentals of Java Programming.
